## 6. GOOGLE ANALYTICS

We use Google Analytics, a web analysis service provided by Google Inc., 1600 Amphitheater Parkway, Mountain View, CA 94043, USA, (Google). Google Analytics uses a tracking cookie to recognize a user who has visited our website in the past (see section 2 above). The information collected by the cookie about your use of our POOL Website (including your IP address) is usually transmitted to a Google server in the USA and stored there.

We added the code "gat.\_anonymizeIp();" to Google Analytics, so your IP address (the number that your Internet access provider has assigned to your device) will be shortened beforehand by Google at our request within member states of the European Union or in other contracting states of the Agreement on the European Economic Area. The usage profiles generated by Google Analytics are thus anonymized, which means that it is impossible to draw conclusions about a specific person. Only in exceptional cases will the full IP address be sent to a Google server in the USA and shortened there.

The usage profiles contain, for example, information about length of stay, approximate geographic origin, origin of visitor traffic, exit pages and usage processes. Google will use this information to evaluate your use of our website, to compile reports on POOL Website activity for us and to provide us with other services related to POOL Website and Internet use. We delete the anonymous usage profiles recorded by Google after twelve (12) months.

Google provides an add-on that enables to disable Google Analytics. You can find this add-on here: <https://tools.google.com/dlpage/gaoptout?hl=de>. You can also find more about use of Google's privacy practices via: <https://support.google.com/analytics/answer/6004245?hl=en>.
